ChinaAccess4EU

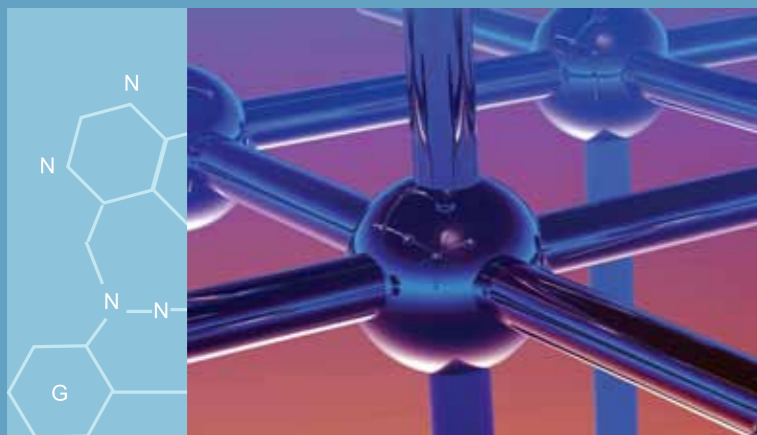

SUPPORTING THE EU ACCESS TO CHINESE  
RESEARCH & INNOVATION PROGRAMMES

## STRATEGIC OBJECTIVES

In order to fill the existing gap in EU-China Science & Technology cooperation, the ChinaAccess4EU project has the following general objectives:

- Increase the awareness and dissemination in the EU of access opportunities for European researchers and research organisations in Chinese national research and innovation programmes;
- Increase S&T cooperation between Europe and China, especially effective collaborations of European researchers and research organisations in Chinese national research and innovation programmes;
- Help develop the reciprocity aspect of EU-China Science & Technology agreements and improve EU's understanding of the research systems in China.

## METHODOLOGY

1. Mapping of the access opportunities in China

2. Dissemination of the results to European research organisations and multipliers

3. Monitoring of the participation of researchers from the EU in Chinese programmes

4. Provision of feedback and recommendations to the EC

## MAIN OUTPUTS

Main outputs that will be available to the European and Chinese research communities include:

- Project website with a searchable database of opportunities for European researchers and research institutions offered by Chinese research funding programmes
- Bi-annual newsletters
- List of key European and Chinese stakeholders
- Project training workshops and dissemination & match-making events in China and Europe
- Strategy Paper for enhancing reciprocity in EU-China S&T Cooperation
